PROFESSIONAL SUMMARY

Multidisciplinary AI Content Specialist, Video Editor, Scriptwriter, and Digital Content Producer experienced in developing engaging digital content from concept to final delivery. Skilled in research, scriptwriting, story development, AI-assisted production, long-form documentary creation, high-retention editing, short-form content, animation, and YouTube thumbnail design. Experienced in managing complete creative workflows—from developing an initial concept and writing the script to visual development, production, editing, thumbnail creation, and final delivery. Portfolio includes 33 original projects across AI documentaries, technology tutorials, educational content, high-retention videos, short-form social content, and animation. Combines creative storytelling, technical execution, AI-powered workflows, and audience-focused content strategy to create polished digital content for modern platforms.

PROFESSIONAL EXPERIENCE

CREATIVE CONTENT PRODUCER / VIDEO EDITOR / SCRIPTWRITER

VISUAL VERSE AGENCY

AI Content Production | Video Editing | Scriptwriting | Digital Media

- Develop and produce original content across AI documentaries, technology tutorials, educational videos, social media, animation, and YouTube formats.
- Manage projects from research and concept development through scripting, visual production, editing, thumbnail design, and final delivery.
- Write structured and engaging scripts for documentaries, educational videos, technology tutorials, YouTube content, and short-form social media.
- Develop compelling hooks, openings, narrative structures, transitions, and calls-to-action designed to improve audience engagement and retention.
- Produce AI-assisted long-form documentary content combining research, storytelling, scripting, visual development, voiceover, and post-production.
- Create educational technology content that transforms complex subjects into clear, accessible, and engaging video experiences.
- Apply high-retention editing techniques through strategic pacing, visual progression, supporting footage, typography, transitions, sound, and narrative flow.
- Produce short-form vertical content designed for modern social platforms, emphasizing strong openings, concise messaging, and visual impact.

- Develop animated and motion-based content for educational, promotional, and social media communication.
- Create YouTube thumbnail concepts and designs for long-form content, focusing on composition, hierarchy, readability, curiosity, and visual impact.
- Adapt content for different platforms while maintaining consistency in messaging, storytelling, and visual quality.
- Integrate AI-assisted workflows into research, ideation, scripting, visual development, and content production.
- Combine creative direction and technical post-production to deliver professional, platform-ready digital content.

CREATIVE CAPABILITIES

Capability	Description
SCRIPTWRITING & STORY DEVELOPMENT	Transforms research, concepts, and information into structured and engaging scripts. Experienced in hooks, introductions, narrative arcs, documentary structures, educational explanations, voiceover writing, and short-form storytelling.
AI CONTENT PRODUCTION	Uses AI-assisted creative workflows for research, ideation, scripting, storytelling, visual development, voice workflows, and content production.
HIGH-RETENTION VIDEO EDITING	Builds engaging viewing experiences through strategic pacing, visual progression, supporting visuals, text, transitions, sound, and narrative structure.
YOUTUBE THUMBNAIL DESIGN	Develops thumbnail concepts for long-form videos with emphasis on visual hierarchy, clarity, curiosity, readability, composition, and strong first impressions.
LONG-FORM DOCUMENTARY PRODUCTION	Experienced in research-driven documentary production combining scriptwriting, storytelling, AI-assisted production, visual development, voiceover, editing, and final presentation.
SHORT-FORM CONTENT	Produces concise vertical content designed around strong hooks, rapid visual communication, platform-native storytelling, and audience attention.

PORTFOLIO COVERAGE

- **AI & Technology:** AI tools, software, technology tutorials, PC optimization, cloud platforms, and practical technology education.
