ABOUT ME

Creative and research-driven content writer specializing in SEO, digital content, copywriting, storytelling, and AI-assisted content creation. Skilled at turning complex ideas into clear, engaging, audience-focused content for brands and digital platforms.

I combine creative writing with digital marketing, audience psychology, and emerging AI tools to develop content that informs, connects, and drives engagement. Adaptable across multiple industries and content formats, with a strong focus on quality, originality, and brand voice.

EXPERIENCE

AI Classics Cinema

2025 – Present

Content Writer & Short-Form Scriptwriter

2

- Write cinematic AI content, short-form scripts, hooks, and creative concepts.
- Develop engaging storytelling for AI-generated cinema and visual narratives.
- Create concise scripts designed for social media, reels, and short-form videos.
- Adapt classic stories and cinematic concepts into compelling modern AI content.

AI COMPASS

2022 – Present

Script Writer | Long-Form Video Content

- Write long-form YouTube scripts covering AI, technology, software, tools, and digital innovation.
- Research technical and complex subjects and convert them into simple, engaging narratives.
- Develop strong hooks, introductions, storytelling flow, transitions, and conclusions.

VISUAL VERSE AGENCY

2025 – Present

AI Content Specialist & Content Writer

- Write SEO articles, website content, social media copy, and marketing content.
- Research complex topics and turn them into clear, engaging, audience-focused content.
- Create headlines, hooks, captions, CTAs, and short-form content designed for engagement.
- Use AI tools for research, ideation, drafting, editing, and content optimization.
- Develop content across technology, AI, digital marketing, lifestyle, education, and consumer topics.
